

Landscape Meeting of 1/23/14

All members were in attendance.

Entry gate proposal # 25592 was approved at the 1/15/15 HOA meeting and is scheduled to begin Monday the 27th.

A proposal for plant material to fill the pots around the lagoon is in work and should be available for review within the week.

Irrigation Project - Harvest proposed plant material recommendation

The Primary topic of discussion was to review and discuss photos and map of the Harvest proposed plant material recommendation contained in proposals 25341. A number of Board and Landscape members have walked the site.

Following the discussion the team by a show of hands voted unanimously in favor of the proposed plant material recommendation. The team agreed that the pepper tree at 16402 Martin will remain however the Pepper tree on the other side of the walk will be removed and replaced. Harvest will be providing 3 additional tree replacement recommendations that will be considered as possible substitution.

The team will meet this **Sunday at the site at 9AM** to review plant quantity, size and placement. This meeting will finalize any change required to the proposals in this regard.

Additionally subjects for discussion in future meetings will be the review and consideration for revision of the LANDSCAPING and GROUNDS portion of the community hand book and related CC&Rs with attention to pots do's and don'ts.

Members are encouraged to submit suggestions of topics for future meetings.

Thanks for your support. See you Sunday.
